Farmall 100 Years

In Farmall 100 Years, award-winning tractor author, photographer, and historian Randy Leffingwell and prolific tractor historian Robert N. Prippe offer a richly illustrated and detailed book that captures the full story of the iconic tractors.

Farmall tractors are among the most influential and iconic farm machines in history. From the first model in 1923 to their final model year in 1973, International Harvester revolutionized the tractor world by conceiving the Farmall brand, revolutionary all-purpose tractors designed for small- to medium-sized farms. Beautiful, contemporary photos and rare historical images accompany in-depth analyses of milestone tractors. The engaging text examines engineering developments, their historical context, and key figures. Farmall 100 even examines pre-1923 predecessors such as McCormick-Deering and the International Motor Cultivator.
