Donna Wilson's Creative Creatures

This craft book with a difference marries exceptional design quality with appealing, easy-to-make projects - all with the help of a winning cast of knitted friends. Donna Wilson's lovable, highly-sought-after knitted characters have made their very own craft creations, and in this book they show children how to copy them. Children will really want to make these things, and with the simple step-by-steps they really can. The book will appeal long after the projects are completed.
