

Your Amazing Child

by

Your Amazing Child

Your child IS amazing. Capable, self-motivated, imaginative and intelligent. They concentrate, problem solve and cooperate. They dress themselves and keep their room tidy. It's not in your dreams. It's 'in real life' thanks to the teaching of Maria Montessori, which empowers kids to do things for themselves from an early age. It's all about playing and learning through play. Discover her secrets with the activities in this book, and welcome the benefits of happy, focussed kids and relaxed, successful parents. Empower your little ones with these montessori-inspired ways to play.
